

Victory Keys to Safety

Conducting Successful Convoy Operations

PRE-OPERATIONAL REQUIREMENTS

- Review local SOP, AR 600-55, FM 9-20, FM 21-305, FM 55-30
- Conduct route reconnaissance
- Develop risk assessment
- Brief personnel
- Prepare/distribute convoy strip maps, vehicle markers, and emergency equipment

OPERATIONAL REQUIREMENTS

- Vehicle markings affixed to vehicle IAW local SOP
- Means of effective communication within the formation
- Ensure operators adhere to Host Nation Laws
- Space vehicles based on operational area security and weather requirements
- Apply vehicle breakdown procedures IAW Unit SOP

SAFETY CONCERNS

- Convoy participants are aware of all hazards and residual risks identified during route reconnaissance and the risk management process
- Occupants know egress procedures
- Occupants wear seat belts in all vehicles
- Experience of vehicle operator and T.C. should be considered when assigning placement within convoy
- Ensure all occupants are trained to react and apply roll-over drill procedures

'VICTORY on the road to SUCCESS'
